

Title / Subject Line: 32 Migraine Experts Answer Your Questions.

Most of us would be grateful for the opportunity to find actionable answers to our migraine challenges from just *one* of the world's leading experts. The Migraine World Summit is bringing together 32 of them so you can do just that and enjoy more migraine-free days. And you can do it from the comfort of your home or office.

Now in its ninth year, Migraine World Summit interviews leading migraine and headache specialists who explain what you can do that will change the impact of migraine on your life. You won't hear the same old, same old because these are the experts actually doing the research, testing the medications, developing the breakthrough technologies, seeing patients daily, and publishing the journal articles that are advancing our understanding of migraine and how to deal with it.

Interviewers ask the questions you would ask if you were in the room. It's interesting. It's exciting. It's empowering. Each interview is 30 minutes, packed with insights and information about the latest knowledge emerging from labs, research studies, and physician experiences around the world.

This is news you can *use*. The point of Migraine World Summit is to provide you with the knowledge and tools to be your own best advocate—whether you see a migraine specialist or a primary care physician. Migraine World Summit brings information directly to you so you'll be prepared to put that information to use *immediately*.

Don't have years to wait for relief? Want to do something now to reduce the impact of migraine on your life and those around you? Then join us for Migraine World Summit 2024, March 6-13. This year there will be another incredible lineup of engaging speakers and topics, including: controlling chronic migraine, managing migraine at work, best exercise options, risks vs. benefits with migraine treatment, and much more.

The Summit is just the beginning. Migraine World Summit offers valuable resources year-round, helping expand your own advocacy efforts. There IS something you can do about migraine. Take control. Join over 150,000 participants at the Migraine World Summit and put yourself in charge of your life.
